

# Mobil EV™ Drive

# Mobil 美孚 EV™ 传动液

Powertrain fluid for electric vehicle reduction gearboxes (normal and extreme pressure).  
 动力系统油液，适用于电动汽车减速齿轮箱（常压和极压）。

Select products in this family are recommended by ExxonMobil for use in applications requiring API GL-4.

对于要求 API GL-4 的应用，埃克森美孚建议使用本系列精选产品。

Select products in this family are suitable for use in clutch plate operated shift or lock-up devices.

本系列精选产品适用于离合片操作的各种变速器或锁止离合器。
